PLEASURES

- From the Primary I studied English, but it was in the last year that all my interest awakes, first for powered my job, often all the documentation and data sheets are in English, second thing is for the camp i will attend in the next summer, and the other thing very important that motivated me was think about my value as profesionist and person because thanks to another language I can learn from cultures based on that language.

ENGLISH KNOWLEDGE

- ▶ Maybe this sound a little bit trite but i need to end the school to powered all my future plans relationated with my actual job because the scope we can have is too extensive with respect the technology, meanwhile i going to enlist all my documents to travel to Oregon, USA for the Camp -B'NAI B'RITH- that wass assigned to me.

FUTURE PLANS

THANK U AND BE HAPPY C:
